## CAUGHT BY A DECOY LETTER.

A Former Greenpoint Physician Tells to Blackmail Mrs. Vaughan.

A tall, elderly, well-dressed man walked up to a letterbox on the corner of the New York Post Office yesterday afternoon and took out a letter for George W. Hall. The clerk handed out a green envelope, and as the man turned from the window and broke the seal of the letter, Detective Henry Miller and Policeman Janekowski of the Cedar street station in Williamsburg tapped him on the shoulder and said he was wanted.

What do you want me for, what have I done? nervously asked the man.

"Never mind; just come along with me and you'll very soon find out," said Detective Miller.

The man, who was Dr. George W. Hall, formerly a wealthy and prominent Greenpoint physician, was taken to the Post Office Inspector's room, where he was accused of having attempted to blackmail Mrs. Adeline Vaughan, the wife of a machinist of 1,362 Greenpoint avenue, Williamsburg.

Dr. Hall, who was married, received a letter from Hall dated at the New York Post Office, demanding \$100 from the doctor, and threatening to expose his private life if the money was not paid.

## DEMOCRATS GAIN IN MAINE.

FIRST ELECTION IN THE STATE UNDER THE NEW BALLOT SYSTEM.

The Republicans Made Extraordinary Efforts to Hold Their Own, but Their Plurality is One-third Less Than in 1890.

PORTLAND, Sept. 12.—The State election for the choice of Governor, four Congressmen, and members of the Legislature occurred to-day under the Australian Ballot law, and, as far as the results of the election are concerned, the working of the system. In 1888 the Republicans had a plurality in the State of 18,053 for Governor, and in 1890 their plurality was 18,800. Comparison this year will be made with the vote of 1890.

From the returns thus far received the indications are that the Republican plurality will be less than 12,000.

The Republicans have made tremendous efforts to increase their vote this year by flooding the State with their ablest speakers and bringing the great influence of James G. Blaine to bear through his letter on the issue of the canvass.

The conditions within the Republican party this year should have brought out a full vote, on account of the candidacy of Wood, Wilson, Milliken and Boutelle for Congress, all leading men in their party, and interested in making an extra good showing in the Presidential year.

Their candidate for Governor, John C. Evans, who was Attorney-General of the State from 1880 to 1889, has a strong war record, and was expected to have polled a large number of votes.

His opponent, John H. Allen, who was a young man of great ability, called "the Russian of Maine," has made a strong personal canvass, and has been assisted by a few Democratic speakers, including Judge W. G. Ewing of Illinois, W. A. Fowden and B. F. Meyers of Pennsylvania, and John J. Burleigh of Michigan.

In the number of votes polled in the Presidential year, the Republicans have shown far greater exertions than the Democrats have been able to put forth, although the Democrats have made a resolute fight.

The leading Republican orators from abroad were Senators Allison, Aldrich, and Sherman, and Governor Allen, who were received with great enthusiasm by the people of the principal cities.

The returns from the Presidential year show that the Republicans have a majority in the State of 12,000.

## SENATOR HILL ACCEPTS.

He Will Address the Democrats of Kings County on Monday Evening.

Col. Thomas E. Pearson, Chairman of the Democratic Committee of Kings County, announced yesterday that Senator Hill had accepted the invitation of the Democrats of Kings County to address them on the issues of the Presidential campaign at a meeting to be held in the Academy of Music, Brooklyn, on Monday evening next.

The announcement was received with great satisfaction by the Democratic leaders of the county, and with equal gratification by the Democratic national headquarters, to which the news of Senator Hill's acceptance was communicated by Lieut.-Gov. Sheehan.

Chairman Pearson, after consulting with Charles Henry Jones of Philadelphia, has addressed a circular letter to the Democratic leaders of the county, asking them to invite Senator Hill to address them on the issues of the Presidential campaign.

## NO NEW CASES OF CHOLERA.

THE IMPORTED PLAGUE ALMOST STAMPED OUT ALREADY.

Were It Not for the Bohemia, Now Nearly Bred, Apprehension Would be About an End—The Case on La Champaña Proved Not to be Cholera.

At last the imported cholera which the vigilant work of Dr. Jenkins and his dupes has confined to the lower bay has received a decided check, and if no more steamships bring the scourge to this port the indications are that the disease will be practically stamped out here in a few days.

The Bohemia, from Hamburg, which is nearly due, is the only steamer ship left whose arrival is looked for with apprehension. It is almost too much to expect that she will have cholera on board or will not have had cases of it on the way.

Although a cable despatch affirms that her passengers were isolated and their baggage disinfected before she sailed on Sept. 2, there will be no difficulty now in handling whatever she brings.

The report which Dr. Byrnes sent up to Dr. Jenkins yesterday by cable after making his daily tour of the ships in quarantine was very encouraging. It showed that no new cases had made their appearance, and that the passengers on the ship and the steerage passengers on Hoffman Island, and Dr. Byrnes stated that all the sick at present on Swinburne Island are on the road to recovery.

This is his report: There were no cases of gastric or intestinal trouble among the passengers.

On Hoffman Island, Schwenk, 2 years old, who has bronchitis, is improving. The personal baggage of the Bohemia's passengers is being disinfected.

On Swinburne Island, Dr. Jenkins, who has been past three hours on the island, has seen no cases of cholera, but has seen one case of cholera, which he has isolated in the Hoffman Island Hospital.

For a few hours yesterday a great deal of anxiety was felt about La Champaña, which arrived yesterday from Hamburg, and which was supposed to have been infected with cholera.

The ship was taken to the Hoffman Island Hospital, and the passengers were isolated. The ship was taken to the Hoffman Island Hospital, and the passengers were isolated.

## THE NAVAL RESERVE CALLED OUT.

A Report that It Will Be Sent to Fire Island for Active Service.

It was suggested to Gov. Flower yesterday that the Naval Reserve be called out to disperse the riotous hordes at Fire Island and to patrol duty in New York Bay and the Great South Bay.

Notices were received by some of the members of the reserve last night to report this morning at Pier 30, North River, equipped for service. The Naval Reserve, which had not received a notice up to 1 o'clock this morning, said he did not think it possible for the reserve to be ready for duty until late this afternoon.

A rumor reported early this morning that at 10 o'clock at night Gov. Flower had called out the Naval Reserve, which had not received a notice up to 1 o'clock this morning, said he did not think it possible for the reserve to be ready for duty until late this afternoon.

The notices were sent out accordingly, calling on the men to report at 8 o'clock. The Naval Reserve, which had not received a notice up to 1 o'clock this morning, said he did not think it possible for the reserve to be ready for duty until late this afternoon.

## "GO BACK OR STARVE!"

The Cepheus Kept from Landing by the Islip Mob.

NO QUARTER FOR WOMEN AND CHILDREN.

Senator McPherson's Vain Appeal to Attorney Reid.

COMPROMISE WITH THE LOCAL BOARD.

Blankets and Food for the Normanna's Passengers, the Injunction for the Captain.

Gov. Flower Issues a Proclamation Directing the Sheriff of Suffolk County to Protect the State Quarantine on Fire Island, and Finds His Instructions Practically Nullified by an Injunction Restraining the Landing of the Normanna's Passengers in Islip Township—Junkies Threaten to Release the Detained Passengers Rather Than Keep Them at Sea—They Are Without Proper Food and Bedding, and Suffer from Exposure—If Flower Were Not Governor He Would Discard That Injunction, He Says, and Take His Punishment—No Deaths on the Quarantined Vessels and No New Cases.

No deaths from cholera, and no suspected cases were reported yesterday from the vessels detained in the lower bay.

The Normanna's passengers, after returning from their fruitless trip on the Cepheus to Fire Island, passed a wretched night, and started out again for the Surf Hotel.

The determination of the residents along the opposite shore of the Great South Bay to prevent their landing had not been weakened, and all that was gained by their appeals was permission for bedding and food to be taken out to the Cepheus, which remained in the bay over night.

An injunction issued by Justice Barnard of Brooklyn restraining the landing on Fire Island of passengers from infected ships was served on the Captain of the Cepheus, and the order was also telegraphed to Gov. Flower at the Windsor Hotel. The injunction is not returnable until Thursday, but the Governor has instructed the Corporation Counsel to suppress any interference with State property on Fire Island.

The passengers now on the Cepheus telegraphed to Gov. Flower last night: "For God's sake release us and let us get to our homes."

REUSED FROM FIRE ISLAND. The Islip Mob Indifferent to the Prisoners' Pleas—Another Night Abandoned Ship.

FIRE ISLAND, Sept. 12.—The situation here last night would furnish a plot for an opera bouffe, but at the time no one concerned looked at it in that way. Practically, Mr. Wilson, with his two assistants from the Consolidated Exchange, Dr. Edson, and eight newspaper men, were on the island, about a quarter of a mile north of the Surf Hotel, where they were guarded by a hundred long island clam diggers and a varied assortment of indignant citizens from the mainland. The Cepheus was known to be outside the bar, unable to cross because no pilot here would go out to her.

The inhabitants of Islip who gathered at Munsey's Hotel on the island, about a quarter of a mile north of the Surf Hotel, were for the most part respectable citizens, but there were some rough characters there who were drinking, and they threatened to burn the Surf Hotel, cut the one telephone wire, and do various other unlawful things.
